

Due to unfortunate machinery issues, **AVALON Dairy** was forced to stop producing 1L and 2L non-glass milk options for their loyal customers. Which is why you may have recently noticed Dairyland organic milk, as it's replacement. Just last week we received our first delivery of Avalon's new 1L jugs. They have permanently turned the page and moved on from the cartons, and we now have to offer you their **Half & Half Cream, Buttermilk, Whipping Cream**, and **1%, 2% & 3.25%** organic milk.

Sticking with the Dairy Department... the combination of garlic and parsley, with a high butterfat content and pure, natural ingredients brings you a unique and innovative spread: **GAY LEA Garlic Parsley Butter**. This Canadian butter, along with its natural spices can easily be incorporated into any recipe. Chef created, and world inspired.

For a limited time only, you can treat yourself to **GOLDFISH Harry Potter Butterbeer Baked Graham Crackers**. With a butterscotch flavour and fun shapes, these sweet crackers are perfect for sharing and snacking. These snacks are baked with 8 grams of whole grain per serving and made with no artificial flavours. Always baked, these crackers contain no artificial flavours, have 0 trans fat and are low in saturated fat.

We've added to our **FEVER-TREE** canned mixers... with the newest addition being **Sparkling Pink Grapefruit**. Made with real juice from handpicked grapefruits, it contains the perfect balance of carbonation and real fruit juice to provide you with soft pink grapefruit floral notes that's perfect as a premium mix or a refreshing light spritz.

For chicken wing fans who prefer their buffalo wings to be on the milder side, **FRANK'S RedHot Mild Wings Hot Sauce** is for you. It has all the tangy flavour and spices of their original wings sauce, but without the heat.

Fresh baked chocolate chip cookies sure are hard to resist. These **ENGLISH BAY** cookies may not be fresh baked, but the one-of-a-kind English Bay Bakery recipe makes them taste like they are, because of how soft these cookies are - not to mention the melt in your mouth chocolate chips they use! If you want to treat yourself to a pack, you will find them located behind the 4th cash register along with the other baked goods.

These **Garlic & Romano Croutons** are prepared using **OLIVE GARDEN'S** own recipe, and are the same ones you will find in their restaurants. Their croutons are made with Romano cheese, seasoned with garlic, Italian herbs & spices, and baked to a delicious golden brown. You will find them at the front of aisle 3.
